

Ethical Hacker / Penetration Tester Based in Manchester

Are you a Penetration Tester at the top of your game looking to join an elite security team on the frontline of cyber security? Are you excited by new challenges and passionate about delivering unrivalled services to your clients in the pentest domain? Come and join ZeroDayLab a CREST affiliated Global Cyber Security Consultancy.

Here at ZeroDayLab we are expanding our technical team to meet the increasing demands of our clients. We are looking to hire an Elite Penetration Tester who will excel in delivering quality penetration test and remediation services to our clients on a global scale. We offer highly competitive salaries and benefits, along with annual bonus', share option scheme and personalised development plan from day one with the business.

If you are an experienced penetration tester, looking for that next step in your cyber security career, then look no further, we are looking to speak with you!

About ZeroDayLab

At the forefront of IT Security Consulting, ZeroDayLab's client base is diverse. Our blue chip clients span across EMEA and come from all industry sectors from medium-size organisations to the FTSE100. Our holistic, 360° approach to IT Consulting Services and complementary security solutions are unparalleled and enable us to retain our clients by working as their strategic security partner, delivering excellent ROI.

We have two passions, Total Customer Satisfaction and Total Security Management; to deliver this, we employ only the very best people across all our locations in Brighton & Hove, London, Manchester, Amsterdam, Dublin, Bangalore and the US.

You will be an Ethical Hacker / Penetration tester with experience. We are looking for candidates at all levels who can demonstrate proven experience in their field.

Your future development is important to us, this is why we ensure that you will have all the time necessary and all the sufficient tools provided to achieve industry specific certifications. We actively encourage our consultants to develop their careers by offering paid training, certifications, accreditations, blogging, White Papers and conferences – we ensure you have the support you need to make a real difference in the InfoSec world.

Job Description

The successful candidate will be located within commutable distance of Manchester (other UK locations will be considered). You will enjoy working for a smaller, dynamic, focussed organisation where every member of the team is Passionate about Total Security Management. The successful candidate will be required to perform a range of IT Security consulting services.

Key Candidate Criteria

- Full technical understanding of information Security Architecture and Penetration Testing principles.
- Technically adept in Manual Penetration testing (both internally and externally).
- Must be able to at least explain in English how a ROP attack is found and executed
- Proven ability to provide delivery of solutions onsite to clients for both Windows and Linux environments.
- Must be personable and comfortable presenting your findings to our clients.
- Must have strong technical understanding of current security trends and solutions.
- Proven experience working in a large datacentre (ie, be comfortable with switch patching and testing procedures when located in a datacentre)
- Understand technical details of pentesting, such as buffer overflows, XSS, SQL Injection, etc.... and the full OWASP Top 10.
- Hold current, in-depth knowledge of using manual penetration testing proxies such as Burp Suite Pro to good effect.
- You must be able to document / report in English to a high standard.
- Additional languages desirable but not essential.
- You should hold one or more of the following (CREST, OSCP, OSCE), other qualifications will also be considered.
- You will agree to undergo a technical test plus interview and provide suitable references.
- Be willing to travel if required.
- Be punctual and meet agreed deadlines.
- Ideally be based from home and client sites.

Successful candidates will be required to undergo background screening and offers of employment will be subject to the results of this screening.

If you feel you have the required experience for this role, please provide your current CV and contact details in the first instance to Adam Ryan, ZeroDayLab Global Talent Acquisition Manager at aryan@zerodaylab.com . For further information, please visit www.zerodaylab.com
