

## **Technical Services Senior Manager – Pen Testing Based in Manchester**

Are you extremely technical and able to strategically support, manage and mentor our outstanding team of IT Security Consultants? Are you excited by new challenges and passionate about security and delivering the best possible tests and remediation for our clients? Do you want to part of a CREST affiliated company?

The last 10 years has seen consistent revenue growth for ZeroDayLab. Our holistic approach to Total Security Management and commitment to the best possible levels of service delivery and technical expertise has enabled us to win an enviable and loyal client portfolio around the globe.

We are now seeking an experienced Technical Services Senior Manager with experience in Penetration Testing, interested in working for a dynamic organisation in a fast-paced working environment. As a member of the management team, you will be a strategic thinker and key to driving our next level of planned growth. This important strategic hire will report directly to our Chief Technical Officer. Competitive salary, bonus and benefits package including EMI Share options, Private healthcare for the family, and Pension scheme and more is on offer to the right candidate.

### **About ZeroDayLab:**

At the forefront of IT Security Consulting, ZeroDayLab's client base is diverse. Our blue chip clients span across EMEA and come from all industry sectors from medium-size organisations to the FTSE100. Our holistic, 360° approach to IT Consulting Services is unparalleled and enables us to retain our clients by working as their strategic security partner, delivering far greater ROI.

We have two passions, Total Customer Satisfaction and Total Security Management; to deliver this, we employ only the very best people across all our office locations in Brighton & Hove, London, Manchester, Edinburgh, Amsterdam, Dublin, and the US.

**You will be a Manager with Penetration testing experience. We are looking for a candidate with at least 5+ years' experience. Your role will consist of about 50% testing / 50% client contact and managing the team to start. The latter will increase as our team increases, so less testing and more client/management time eventually.**

### **Job Description:**

The successful candidate will be located in Manchester preferably although other locations will be considered. You must have an existing right to work in the UK. You will enjoy working for a dynamic, focussed organisation where every member of the team is Passionate about Total Security Management. The successful candidate will be required to perform a range of IT Security consulting services.

### **Key Candidate Criteria:**

- Inspire and manage a team of Consultants/Testers.

- Be a key member of the management team.
- Have strong team leadership and people management experience.
- To be able communicate with and motivate a small but growing team of people
- An experienced Penetration Tester / Technically adept in Manual Penetration testing (both internally and externally) and extremely technical in information security architecture
- Self-reliant and flexible
- Customer facing, comfortable presenting your findings to our clients.
- Have worked in a large datacentre (ie, be comfortable with switch patching and testing procedures when located in a datacentre) Understands technical details of pentesting, such as buffer overflows, XSS, SQL Injection, etc.... and the full OWASP Top 10.
- Have in-depth knowledge of using manual penetration testing proxies such as Burp suite pro to good effect.
- Must be able to at least explain in English how a ROP attack is found and executed; also able to provide delivery of solutions on-site to clients for both Windows and Linux environments.
- Must have strong technical understanding of current security trends and solutions.
- Experience in Pre/Post Sales and working closely with the sales team is desirable
- You must be able to document / report in English to a high level. Additional languages would also be a bonus but not necessary.
- A Self-motivated, enthusiastic and skilled individual that is client facing and personable.
- You can hold one or more of the following (CREST, CLAS, CHECK, Tiger Team, CISSP, OSCP, OSCE), other qualifications will also be considered.
- Some travel will be expected but minimal.
- Be punctual and meet agreed deadlines.
- Based from home and on client premises predominantly in the UK but also Europe/the US on occasion. Or if located close enough to one of our offices, be based from there.

Successful candidates will be required to undergo background screening and offers of employment will be subject to the results of this screening.
